Skills & Interests

Technologies JavaScript, React, Redux, Node, Express, Python, Flask, PostgreSQL, Git, HTML, CSS
Interests Martial Arts, Weight Lifting, Yoga, Cooking, Diet & Nutrition
Additional Second-Degree Black Belt in Tae Kwon Do

Projects

Jobly (React, Node, Express, PostgreSQL) – <http://jobly-build.surge.sh>

- Full stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

Microblog (React, Redux, Node, Express, PostgreSQL) – <http://microblog.surge.sh>

- Full stack blogging application that allows users to create blog posts, add comments, and rank posts by votes.
- Optimized homepage load speed by storing separate data structures for blog titles and posts in Redux store.

Warbler (Flask, Jinja, PostgreSQL) – <https://warbler-flask-app.herokuapp.com>

- Twitter clone built entirely as a backend application. Users can login, follow users, and create/like messages.
 - Authenticated users with Bcrypt and stored current user data in Flask session to persist state across requests.
 - Implemented SQLAlchemy ORM for increased scalability. Tested models and views with Python Unittest.
-

Experience

Software Engineering Bootcamp Teaching Assistant

Summer 2021

CodePath.org | San Francisco, CA

- Created and delivered React lecture to 35 students, covering: component design, state patterns, and hooks.
- Debugged daily labs and projects to help students build full stack web applications in React and Node/Express.
- Mentored 9 students individually. Provided technical guidance, leadership development, and career advice.

Software Engineer, Open-Source Contributor

Fall 2020

Numbers API | San Francisco, CA

- Removed Ruby dependencies and translated code to use Node.js ecosystem.
- Enhanced performance by relegating frontend libraries to package dependencies.
- Refactored codebase with JavaScript ES6 and updated documentation for new contributors.

Software Engineer Intern

Spring 2020

JumpOffCampus, Inc. | San Francisco, CA

- Refactored legacy React components from classes to hooks to simplify patterns and improve readability.
- Improved apartment listings UI by separating list and map views and integrating Google Maps API.
- Built and tested MVC components for “points of interest” feature, as part of an upgrade from Rails 2 to Rails 5.
- Received a job offer upon completion of the internship.

Financial Analyst & Project Manager

2013 – 2019

Chevron Corporation | San Ramon, CA | El Segundo, CA | Vancouver, BC

- Coordinated global SOX training program. Managed content creation and reporting and instructed 200+ people.
 - Supervised remote team of 10 Financial Analysts for enterprise-wide RPA risk assessment program.
 - Advised \$80M Refinery Maintenance budget by developing and presenting monthly variance analyses.
 - Directed one of seven labor initiatives to standardize finance activities across North American Refinery sites.
 - One of six college-hires selected nationwide for the 2013 Finance Leadership Development Program.
-

Education

Rithm School, San Francisco

April 2020

Full-Time Software Engineering Bootcamp

California Polytechnic State University, San Luis Obispo

June 2013

B.S. Business Administration, summa cum laude (3.9 GPA)
