---

## Skills & Interests

**Technologies** JavaScript, React, Redux, Node, Express, Python, Flask, PostgreSQL, Git, HTML, CSS  
**Interests** Martial Arts, Weightlifting, Yoga, Cooking, Diet & Nutrition  
**Additional** Second-Degree Black Belt in Tae Kwon Do

---

## Projects

**Jobly** (React, Node, Express, PostgreSQL) – <http://jobly-build.surge.sh>

- Full stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

**Microblog** (React, Redux, Node, Express, PostgreSQL) – <http://microblog.surge.sh>

- Full stack blogging application that allows users to create blog posts, add comments, and rank posts by votes.
- Optimized homepage load speed by storing separate data structures for blog titles and posts in Redux store.

**Flixster** (JavaScript, HTML, CSS) – <https://flixster.netlify.app>

- Movie application built with Vanilla JavaScript. Users can search movies by title and view details within a popup.
  - Application is built with pure CSS and features flexbox and grid. Data is sourced from The Movie Database API.
- 

## Experience

**Software Engineering Teaching Assistant**

**Summer 2021**

*CodePath.org | San Francisco, CA*

- Created and presented React lecture to 35 students, covering: component design, state patterns, and hooks.
- Debugged daily labs and projects to help students build full-stack web applications in React and Node/Express.
- Individually mentored 9 students. Provided technical guidance, leadership development, and career advice.
- Suggested curriculum changes to management to address pain points and facilitate student success.

**Software Engineer Intern**

**Spring 2020**

*JumpOffCampus, Inc. | San Francisco, CA*

- Refactored legacy React components from classes to hooks to simplify patterns and improve readability.
- Upgraded apartment listings UI by separating list and map views and integrating Google Maps API.
- Built and tested MVC components for “points of interest” feature, as part of an upgrade from Rails 2 to Rails 5.
- Received a job offer upon completion of the internship.

**Training Coordinator**

**2018 – 2019**

*Chevron Corporation | San Ramon, CA*

- Coordinated global SOX training for 3,000 people. Created technical content, delivered training to 200+ people, conducted focus groups and feedback sessions, and built new tools to streamline scheduling and reporting.
- Developed and operationalized enterprise-wide Robotic Process Automation (RPA) risk assessment program.
- Supervised remote team of 10 RPA Analysts. Led training, risk reviews, stakeholder engagement, and reporting.

**Financial Analyst & Project Manager**

**2013 – 2018**

*Chevron Corporation | El Segundo, CA | Vancouver, BC & San Ramon, CA*

- Stewarded \$80M Refinery Maintenance budget by developing and presenting monthly variance analyses.
  - Directed one of seven labor initiatives to standardize finance activities across North American Refinery sites.
  - Reduced employee expense by \$250,000 by streamlining internal monthly reporting processes.
  - One of six college-hires selected nationwide for the 2013 Finance Leadership Development Program.
- 

## Education

**Rithm School, San Francisco**

**April 2020**

Full-Time Software Engineering Bootcamp

**California Polytechnic State University, San Luis Obispo**

**June 2013**

B.S. Business Administration, summa cum laude (3.9 GPA)
