Skills & Interests

Technologies JavaScript, React, Redux, Node, Express, Python, Flask, PostgreSQL, Git, HTML, CSS

Interests Martial Arts, Weight Lifting, Yoga, Cooking, Diet & Nutrition

Additional Second-Degree Black Belt in Tae Kwon Do

Projects

Jobly (React, Node, Express, PostgreSQL) – http://jobly-build.surge.sh

- Full-stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

Microblog (React, Redux, Node, Express, PostgreSQL) – http://microblog.surge.sh

- Full-stack blogging application that allows users to create blog posts, add comments, and rank posts by votes.
- Optimized homepage load speed by storing separate data structures for blog titles and posts in Redux store.

Warbler (Flask, Jinja, PostgreSQL) – https://warbler-flask-app.herokuapp.com

- Twitter clone built entirely as a backend application. Users can login, follow users, and create/like messages.
- Authenticated users with Bcrypt and stored current user data in Flask session to persist state across requests.
- Implemented SQLAlchemy ORM for increased scalability. Tested models and views with Python Unittest.

Experience

Software Engineering Bootcamp Teaching Assistant

Summer 2021

CodePath.org | San Francisco, CA

- Developed and delivered React lecture to 35 students, covering: component design, state patterns, and hooks.
- Debugged daily labs and projects to help students build full-stack web applications in React and Node/Express.
- Individually mentored 9 students, providing weekly feedback on assignments and general career advice.

Software Engineer Fall 2020

Numbers API | San Francisco, CA

- Removed Ruby dependencies and translated code to use Node is ecosystem.
- Enhanced performance by relegating frontend libraries to package dependencies.
- Refactored codebase with JavaScript ES6 and updated documentation for new contributors.

Software Engineer Intern

Spring 2020

JumpOffCampus, Inc. | San Francisco, CA

- Built and tested MVC components for "points of interest" feature, as part of an upgrade from Rails 2 to Rails 5.
- Improved apartment listings UI by separating list and map views and integrating Google Maps API features.
- Refactored legacy React components from classes to hooks to simplify patterns and improve readability.
- Received a job offer upon completion of the internship.

Financial Analyst / Training Coordinator

2013 - 2019

Chevron Corporation | San Ramon, CA | El Segundo, CA | Vancouver, BC

- Coordinated global compliance training program. Instructed 200+ people and increased attendance by 70%.
- Supervised remote team of 10 Financial Analysts for enterprise-wide risk assessment program.
- Reduced employee expense by \$250,000 by streamlining and automating local finance processes.
- Stewarded \$80M Refinery Maintenance budget by developing and presenting monthly variance analyses.
- One of six college-hires selected nationwide for the 2013 Finance Leadership Development Program.

Education

Rithm School, San Francisco

April 2020

Full-Time Software Engineering Bootcamp

California Polytechnic State University, San Luis Obispo

June 2013

B.S. Business Administration, summa cum laude (3.9 GPA)
