Paige Godfrey

San Francisco, CA | 408-763-6067 | paagodfrey@gmail.com | paigegodfrey.com | github.com/paigegodfrey

Skills & Interests

Technologies JavaScript, TypeScript, React, Redux, Node, Express, Jest, PostgreSQL, Git, HTML, CSS
Interests Martial Arts, Weight Lifting, Yoga, Cooking, Diet & Nutrition
Additional Second-Degree Black Belt in Tae Kwon Do

Projects

Jobly (React, Node, Express, PostgreSQL) – http://jobly-build.surge.sh
- Full stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

Microblog (React, Redux, Node, Express, PostgreSQL) – http://microblog.surge.sh
- Full stack blogging application that allows users to create blog posts, add comments, and rank posts by votes.
- Optimized homepage load speed by storing separate data structures for blog titles and posts in Redux store.

Experience

Frontend Software Engineer Intern   2021 – 2022
Chronicled, Inc. | San Francisco, CA
- Developed, implemented, and tested new filter feature for contract customers using React and GraphQL.
- Fixed bugs, refactored legacy code, and standardized component design for customer-facing web dashboard.
- Contributed to React component library by creating presentational components using Storybook.
- Wrote unit and integration tests with Jest and Cypress to increase code coverage.
- Collaborated with design, product, and QA to define acceptance criteria and minimize rework.
- Used Agile SCRUM methodologies to facilitate development and fulfill customer requirements.

Software Engineering Bootcamp Teaching Assistant   Summer 2021
CodePath.org | San Francisco, CA
- Created and delivered React lectures to 35 students, covering component design, state patterns, and hooks.
- Debugged daily labs and projects to help students build full stack web applications in React and Node/Express.
- Mentored 9 students bi-weekly, providing technical feedback, career guidance, and leadership development.
- Proactively drove curriculum changes to address pain points and facilitate student success.

Full Stack Software Engineer Intern   Spring 2020
JumpOffCampus, Inc. | San Francisco, CA
- Refactored legacy React components from classes to hooks to simplify patterns and improve readability.
- Updated apartment listings UI by separating list and map views and integrating Google Maps API.
- Built and tested MVC components for points of interest feature, as part of an upgrade from Rails 2 to Rails 5.
- Received a job offer upon completion of the internship.

Financial Analyst & Project Manager   2013 – 2019
Chevron Corporation | San Ramon, CA | El Segundo, CA | Vancouver, BC
- Coordinated global SOX training program. Managed content creation/administration and trained 200+ people.
- Developed, operationalized, and supervised enterprise-wide risk assessment program for robotic automation.
- Stewarded $80M Refinery Maintenance budget by developing and presenting monthly variance analyses.
- Led one of seven manufacturing initiatives to standardize finance activities across North American refinery sites.
- Reduced employee expense by $250,000 by streamlining internal monthly reporting processes.
- One of six college-hires selected nationwide for the 2013 Finance Leadership Development Program.

Education

Rithm School, San Francisco   April 2020
Full-Time Software Engineering Bootcamp

California Polytechnic State University, San Luis Obispo   June 2013
B.S. Business Administration, summa cum laude (3.9 GPA)
